

THE TYRE WITH
PREMIUM
QUALITIES

MANUFACTURER OF SENTURY-LANDSAIL: SENTURY TIRE

- Supplies more than 20 million car tyres a year worldwide
- Holder of the CTSOA Certificate: Certified to supply aircraft tyres to Boeing for its 737 aircraft
- State-of-the-art 4.0 Industry plants
- Proven, very high quality level at budget prices
- Delivers factory tyres in Asia for e.g. Audi and Geely (owner of e.g. Volvo, Polestar & Lotus)
- Top model summer tyre Qirin 990 has excellent label values, also under the new eprel guidelines
- Very wide range available in all categories and in all seasons

QIRIN 990 EV

- First ever Chinese EV tyre available on the European markets.
- The tread uses three types of computer-optimised tread pattern designs that can effectively avoid resonances and improve comfort: a lower noise level.
- The new profile has a low rolling resistance design with excellent grip.
- First tyre developed under the new Sentury brand name.

2020/740

QIRIN 990 EV 

QIRIN 990

- The Qirin 990 is designed to improve handling both on dry and wet roads.
- New pattern developed for OE projects and after market.
- The new variable tread step makes it possible to reduce noise.

15 TO 20 INCH

LS588

- The LS588 is the ideal blend of dry road handling, wet road aquaplaning and enhanced traction.
- Special 3D zigzag sipes help maintain block rigidity by locking together and they create more biting edges for enhanced wet conditions.

16 TO 22 INCH

LS388

- The Sentury-Landsail LS388 is a passenger car tyre with an optimised tread for the sporting medium-range cars.
- The wide, continuous longitudinal grooves are connected by the lateral diagonal grooves. Combined with the specially designed, rapid water-dispersing transverse grooves on the shoulder, maximum grip is retained and the chance of aquaplaning significantly reduced.

13 TO 18 INCH

LS288

- The Sentury-Landsail LS288 is a modern passenger car tyre with a balanced and optimised treadpattern.
- The four wide longitudinal grooves ensure rapid and adequate water dispersion whilst retaining grip on wet road surfaces.
- The composition of the tread also effectively reduces the rolling noise.

14 INCH

SEASONS DRAGON 2

- The high-tech rubber compound combined with a special tread construction gives reliable driving characteristics in all weather conditions.
- The tread compound also reduces rolling noise, ensuring driving comfort.
- The contiguous, long tread blocks make handling very stable.

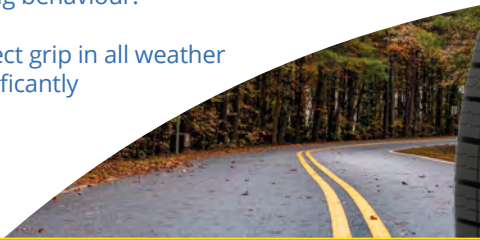

14 TO 21 INCH

SEASONS DRAGON VAN 2

- The combination of the tyre structure and rubber compounds guarantees stable, comfortable and predictable driving behaviour.
- The new tread construction ensures perfect grip in all weather conditions (summer and winter) and significantly reduces the risk of aquaplaning.
- Completely newly developed all-season tread provides excellent performance.

15 TO 17 INCH

4-SEASONS

- The 4-Seasons is a passenger car tyre developed for all weather conditions.
- Carrying the three peak mountain snowflake symbol, so approved for special winter legislation such as in Germany.
- The dual tread compound let's you drive care free in all seasons.

13 TO 18 INCH

WINTER LANDER

- The Sentury-Landsail Winter Lander is a winter tyre developed for passenger cars.
- The silica rubber compound ensures the tyre remains flexible, even at very low temperatures. The V-tread, shaped by the transverse grooves, increases the grip on both wet and snowy surfaces and guarantees reliable braking and handling.

13 TO 19 INCH

CLV2

- The Sentury-Landsail CLV2 is a summer tyre specially designed for Crossovers & SUVs.
- The special rubber compound, the extra reinforced base and the tread design guarantee reliable and predictable handling of large SUVs.

16 TO 18 INCH

WINTER STAR

- The Sentury-Landsail Winter Star is an SUV winter tyre.
- The central arrow tread increases road holding and maximises braking on wet and snowy surfaces. The very large longitudinal groove rapidly disperse water and snow, allowing grip, steering and braking to be maintained.
- By adding silica to the rubber compound the tyre remains flexible, also at very low temperatures.

16 TO 18 INCH

LSV88

- The Sentury-Landsail LSV88 is a robust van tyre that can handle tough conditions.
- The special rubber compound, the strong carcass and the balanced tread guarantee optimal performance when carrying maximum load.

14 TO 16 INCH

CT6

- The special microgrooves in the central surface increase road contact which provides excellent grip.
- Three wide longitudinal grooves for efficient water drainage, this reduces the risk of aquaplaning.
- Ensure increased mileage.

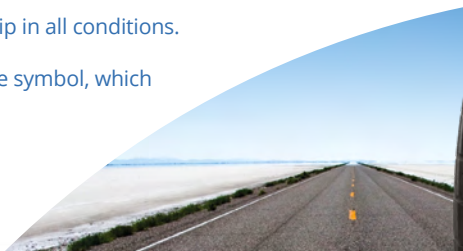

13 & 14 INCH

4-SEASONS VAN

- The unique tread design lets the tyre excel in all seasons.
- The unique dual tread compound gives good grip in all conditions.
- The tyre has the three peak mountain snowflake symbol, which qualifies it as an official winter tyre.

15 & 16 INCH

SNOW STAR

- The special microgrooves in the central surface increase the road contact, which provides excellent grip.
- Three wide longitudinal grooves for efficient water drainage, this reduces the risk of aquaplaning.
- Ensure increased mileage.

15 TO 17 INCH
